Subject: [External] Re: Solar Energy

Thank you for writing. I am engaged and have an OpEd being published this week that highlights the issue and our legislative concerns too.

While no legislator can "meddle" in the process, we can let it be known that our intent was to get solar energy more mainstream and available.

The "what's next" is not totally clear as the parties involved can appeal the ruling, request a new hearing or let the decision stand. I will be monitoring what those actions will be.

I will continue to promote solar energy and work with stakeholders in that endeavor.

Have a great South Carolina day and thank you for your care and activism.

Shannon
